

New Zealand Recreational Fishing Council

KEY POINTS

KIWIS VALUE FISHING

Around 1 million New Zealanders go fishing every year and regard fishing for food or fun as an iconic part of the Kiwi lifestyle.

PROTECT & ENHANCE RECREATIONAL FISHING

Constant vigilance is required to hold off threats to recreational fishing and ensure abundance is ongoing. NZ's fisheries are shared and are vulnerable to impact from land use activities and overfishing. A strong voice for recreational fishing is crucial.

WHO IS THE NZRFC?

Since 1978, the Recreational Fishing Council has been an advocate for recreational fishers and participated in fisheries management. We represent over 86,000 fishers, are recognised by the Government and Courts as a representative body and are the only national body directly offering membership to individual fishers. We work on all fish species, in all regions and for all fishers across New Zealand.

TRACK RECORD

Examples of the many notable achievements are found on the website www.recfish.co.nz

The NZ Recreational Fishing Council envisage a future that has:

Guaranteed access to abundant fisheries for all recreational fishers in NZ

You are very welcome to join and support NZRFC in its advocacy work and in its journey to foster change to a better future for all recreational fishers.
